Please contact your Zoning Administrator to determine the permitting path forward for your project. A general outline of the process is provided below.

Land Development that requires a DRB Hearing

Step 1: Application

- Submit the Development Review Application, a drawing to scale, and applicable fee to the Planning & Zoning Department.
- Staff Review
 - Statutory requirements (warning, abutters notices, agendas, staff report) are prepared.
 - A Notice of Public Hearing sign will be mailed to you. You must post the sign visible from a public right of way.
 - Technical Advisory Committee reviews the application and provides comments to be included in the staff report.
 - A staff report is prepared approximately 5 days prior to hearing date and provided to applicant, engineer, consultants, and any interested parties that request it. The report outlines compliance with the regulations.

Step 2: DRB Hearing

- DRB Hearing
 - Applications are scheduled for the next available Development Review Board (DRB) hearing.
 - The DRB meets on the 2nd and 4th Thursday of each month.
 - The applicant and/or representative must attend hearing.
 - If the hearing is closed, DRB has 45 days to issue a Notice of Decision.
- Notice of Decision
 - A Notice of Decision will be emailed and/or mailed to you.
 - A Notice of Decision has an appeal period of 30 days from signature date. Any interested parties can appeal during this time to Environmental Court.
 - If approved, proceed to Step 3.

Step 3: Conditions of Approval

- You must meet all conditions of approval required in the Notice of Decision.
- Provide P&Z Staff with final plans for review (electronic).
- Staff reviews final plans and provide comments.
- Print a hardcopy of final plans for town files.
- If any public infrastructure is proposed, see our flowchart for that process.

Step 4: Town Permits for Construction and Land Development

- Connecting to Town Water and/or Sewer
 - Apply for Allocation with applicable fee to the Department of Public Works:
 - Obtain a State W/WW permit.
 - Apply for a Connection Permit.
 - Submit Application and applicable fees.
 - Read through all conditions of approval and contact DPW with any questions/concerns.
 - Request and pay for water meter, if applicable.
 - Staff orders/provides water meter.
 - Staff creates Town account for applicable utility.
 - Notify DPW when work is completed and/or the meter is installed.
 - DPW inspects installation and provides comments, if applicable
- Constructing a driveway on public road and/or connecting to water/sewer on public road
 - Apply for a Highway Access Permit with applicable fee to DPW
 - Read through all conditions of approval and contact DPW with any questions/concerns.
 - Notify DPW when construction is completed.
 - DPW inspects and provides any comments to applicant.
 - Release deposit to applicant.
- Zoning Permit
 - Provide all applicable State permits to Zoning Administrator
 - Apply for Zoning Permit and pay applicable fee
 - Provide all applicable State permits to Zoning Administrator
 - Zoning Administrator has 30 days to review
 - Once approved, there is a 15-day appeal period.
 - After construction is completed, you must obtain a Certificate of Compliance to “close out” your project.
 - If this is a new residential dwelling unit, you will pay the applicable impact fee at this time.
 - Perform inspection to close out permit and provides copy of approved certificate of compliance to applicant.

State Information:

“The Agency of Natural Resources’ (ANR) [Permit Navigator](#) tool helps you determine what environmental permits you may need for a project. This brief questionnaire allows you to learn about various Agency permits while providing permit recommendations based on your unique situation. Once the questionnaire is complete, Permit Navigator produces a downloadable/printable guide to help you through the permitting process. This includes brief permit explanations, time to issue permits, application fee amounts, links to the applications, program resources and contacts, and more. **Please note, this tool is designed for projects on a single parcel of land. If your project is not a single parcel project, please request a [Project Review Sheet](#).**”
